132nd Report of the Public Schools of Missouri

For the School Year Ending June 30, 1981

Issued by the Missouri State Board of Education
Irving A. Williamson, President
Arthur L. Mallory, Commissioner of Education

MISSOURI STATE BOARD OF EDUCATION

JEFFERSON BUILDING • JEFFERSON CITY, MISSOURI 65102

January 1, 1982

Members of the General Assembly
State of Missouri

Ladies and Gentlemen:

The State Board of Education herewith submits its One Hundred Thirty-Second Report of the Public Schools of the State of Missouri. This report, prepared in compliance with Section 161.092, Missouri Revised Statutes, covers the school year ending June 30, 1981.

We hope the information contained in this report will be of interest and assistance to you as you consider the needs and major problems of the public schools of the State of Missouri.

Respectfully,

Irving A. Williamson

Irving A. Williamson
President, State Board
1980-81

Arthur L. Mallory
Commissioner of Education

Linda L. Ward
Secretary, State Board of Education

The State Board of Education was established in its present form by the Missouri Constitution of 1945. The State Board of Education consists of eight lay citizens appointed by the Governor with advice and consent from the Senate. Article IX, Section 2(a) also states that no more than four members of the Board may belong to the same political party. State Board members are appointed for eight-year terms which are arranged so that only one term expires each year. The Board elects its own officers.

The responsibilities of the State Board of Education extend from preschool through post-secondary and adult education programs. These responsibilities include:

- Establishment of policies for the leadership, service and regulation of public education. These policies are administered by the Missouri Department of Elementary and Secondary Education.
- Operation of the State School for the Blind and the State School for the Deaf.
- Operation of State Schools for Severely Handicapped Children.
- Classification of schools and certification of teachers.
- Administration of vocational education, vocational rehabilitation and veterans' education programs.
- Administration and supervision of programs under the Elementary and Secondary Education Act of 1965 and other Federal programs.
- Apportionment of state school moneys.
- Publication of laws relating to schools.
- Collection and publication of information which reflects continuously the condition and management of the state's public schools.

Part I

Report of the Year Completed

The Year in Review

By Arthur L. Mallory, Commissioner of Education

The 1980-81 school year was a year of contradictions.

For example, the U. S. Department of Education was officially established May 7, 1980—amid great fanfare—as a Cabinet-level agency for the first time. The creation of a Cabinet-level education agency was a priority of President Jimmy Carter's administration, and many educators hailed the new agency as an important symbol of education's importance in the United States.

The mood changed abruptly, however, when Ronald Reagan was elected President of the United States in November 1980. His platform included a promise to dismantle the fledgling education agency and to redefine the federal government's role in education as well as in other areas. *What's going to happen in Washington now?* immediately became the major topic of discussion among educators nationwide.

In Missouri, the 1980-81 school year brought a record increase—$90 million—in state financial aid for local school districts through the foundation program. The average salary for classroom teachers in Missouri increased by more than 12 percent during the year—another record. At the same time, though, there was increasing concern among school officials about financial problems. At the state level, questions about additional funding for public schools and new sources of revenue for education were major topics of debate during the year.

Questions about the so-called "new federalism" in education and about the future of school funding in Missouri were not resolved during 1980-81. Events of the year set the stage for things to come, however.

As a result, 1980-81 will probably be remembered as an important time of transition for public education in Missouri and across the nation.

School Finance Dominates Statewide Discussion

While the business of teaching and learning went on as usual in school districts throughout the state, the topic of school finance dominated the news and discussions among educators during 1980-81. A special School Finance Study Committee appointed by the State Board of Education met for the first time during June 1980, and it continued to meet monthly for the rest of the year. The committee included legislators appointed by the leaders of the Missouri House and Senate as well as school board members, school administrators, interested citizens and representatives of all major education organizations.

After studying major trends in school finance and the major problems confronting school districts in different parts of the state, the committee presented its report and conclusions to the State Board of Education during December 1980. Although the Board had followed the committee's work closely and was familiar with most of the issues and recommendations included in the committee's report, the Board scheduled a special one-day meeting, December 20, to act on the committee's recommendations.

"The short-range financial outlook for the schools is gloomy," the committee concluded. The factors contributing to this outlook were:

1. A continuing high rate of inflation.
2. The declining status of teachers' salaries.
3. A growing number of districts with specific financial problems and deficits.
4. The two-thirds majority required for tax levy increases in most school districts.
5. The increasing reliance on state funds. (The accompanying graphs illustrate how the balance of funding between state and local sources has changed during the past decade.)

The committee's report included 13 recommendations. The State Board of Education voted to endorse all of the recommendations except one. Copies of the recommendations were sent to Governor Joe Teasdale, Governor-Elect Christopher Bond and each state legislator on January 2, 1981. In his letter accompanying the recommendations, State Board of Education President Irving A. Williamson noted that Missouri's public school districts "are facing significant financial problems which

promise to become more pronounced in coming years. . . prompt action must be taken if we are to maintain the quality of our schools."

The major change proposed by the School Finance Study Committee was a four-part package of recommendations calling for:

• A new one-cent state sales tax to be earmarked for public schools. Under this proposal, half of the revenue generated by the sales tax would be used to provide additional revenue for public schools; the other half would provide for property tax reductions in local school districts.

• The use of actual enrollment data—instead of enumeration—as the basis for distribution of certain categories of state financial aid (free textbook funds; fines, forfeitures and escheats; and a portion of railroad and utility taxes). The enrollment, or membership, count provides a more accurate basis than enumeration for distribution of these funds.

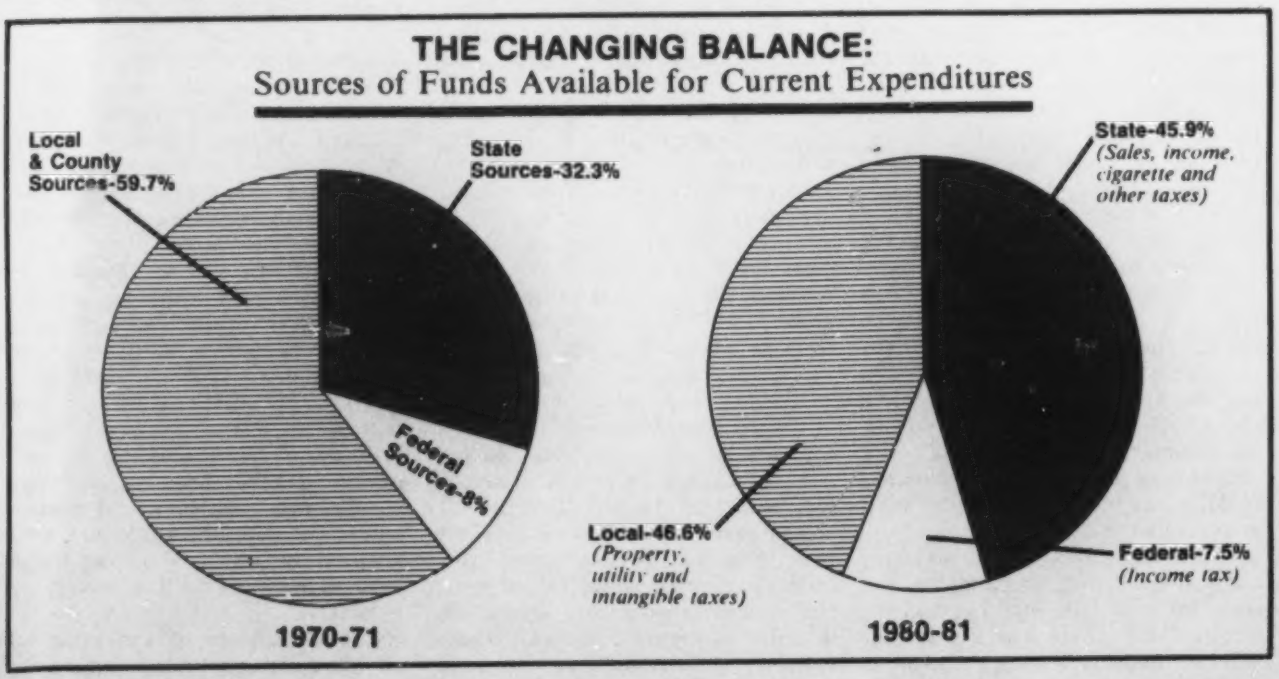
• Use of a three-year eligible pupil average. The committee recommended that school districts be given the option of using a three-year average when applying for state aid. This provision would provide a "cushion" for districts losing students faster than the state average.

• A cost-of-education index. The committee recommended this index be added to the current state aid formula to recognize cost differences among school districts throughout the state.

The committee made other recommendations concerning administration of the property tax, reducing the number of authorized school funds to three from five, and removing franchise taxes from utility bills paid by local school districts.

The only recommendation not endorsed by the State Board of Education called for a constitutional amendment to change the tax levy which a board of education may establish without a vote of the people. The Board did not support this recommendation because of uncertainty over the effects of pending statewide property reassessment and because other measures recommended by the committee could relieve financial problems for some school districts.

Naturally, the proposal for a special sales tax to benefit schools



was the most controversial part of the recommended changes. The proposal sparked a great deal of discussion throughout the state, and it served to underscore the growing severity of school districts' financial needs. Some opposed the proposal simply because it represented a potential tax increase; others opposed it because they did not favor the idea of an "earmarked tax" for education.

The recommendations endorsed by the State Board of Education were included in a bill submitted to the General Assembly during 1981. The sales tax plan and revisions in the school foundation program were among the predominant issues during the legislative debate. The sales tax proposal was approved by the House of Representatives, but it was defeated in the Senate.

Even if the sales tax plan had been approved by the General Assembly, it would have been necessary for the plan to be submitted to Missouri voters at a general election because of the requirements of the "Hancock Amendment" enacted in 1980.

Shortly after the General Assembly adjourned, the Missouri State Teachers Association (MSTA) launched a statewide campaign to submit the sales tax plan to voters through an initiative petition. The organization began collecting signatures across the state during the summer of 1981 in hopes of being able to submit the sales tax question to Missouri voters during the 1982 general election.

Funding for all state services, not just education, was a major concern for the Missouri Legislature during 1981. There was a slump in state revenue, reflecting the general economic recession, and appropriations authorized by the General Assembly were "tight" across the board. Soon after the legislature adjourned, for example, Governor Christopher Bond vetoed or withheld about $95 million in funds authorized for fiscal 1982. All state agencies, including the Department of Elementary and Secondary Education, were ordered to reduce spending by 10 percent. Funds distributed to local school districts through the foundation program were not affected by the Governor's order, however. The State Board of Education had requested an increase of about $89 million for fiscal 1982. Because of the difficult financial situation confronting the state, however, the legislature approved an increase of only $24 million.

While the debate over the proposed sales tax and other school finance issues was going on, the debate was beginning in Washington, D. C., over President Reagan's proposals for spending reductions and "block grants." Although Congress took no final action regarding educational funding during 1980-81, rumors about "massive spending cuts" and major changes incorporated in the block grants added to the uncertainty and concern about financial prospects for public schools.

There were many illustrations of the reality of financial problems confronting school districts during 1980-81. Eighty-six school districts, for example, began the 1980-81 school year with budget deficits left over from the previous year. Prior to the beginning of the school year, the State Board of Education distributed suggestions to all school districts concerning ways to save money in the operation of school buses. The Board also adopted a policy of not approving school bus routes which included short runs off main roads onto dead-end streets. Some school districts in the state began converting their school buses to burn propane, as a means of economizing. Energy conservation measures were instituted in many districts.

The 1980 Regional Educational Conferences, sponsored by the Department of Elementary and Secondary Education, also focused on questions about school finance. The conferences were timely and provided many Missourians with a better understanding of the present school funding system and the practical financial needs of our schools. A summary report of the conference appears on page 12.

Teacher Quality Emphasized

Everything that happened in education in Missouri during 1980-81 did not involve money, however. Although there is an undeniable link between quality education and adequate financial support, the State Board of Education gave considerable attention to another key ingredient of good schooling—quality classroom teachers.

For example, staff of the Department of Elementary and Secondary Education worked throughout 1980-81 to develop new procedures for evaluating and approving teacher training programs in Missouri's colleges and universities. The approval guidelines were adopted by the Board during March 1980, to become effective September 1, 1981.

The purpose of the approval standards is to establish criteria for

Average School Tax Levies	
High School Districts	$4.20
Elementary Districts	3.90
Total for All Districts	4.15

all teacher training programs. Institutions of higher education must apply to the Department for approval of their teacher education programs. Approvals, granted on the basis of written materials as well as personal visits by teams of educators trained to evaluate programs, will be granted for seven-year periods.

During April of 1981, the State Board of Education also approved a comprehensive revision of training standards for teachers of the handicapped. The new standards, which are the basis for granting teaching certificates, become effective September 1, 1986. This action by the Board continues its efforts during recent years to update certification standards and requirements for all areas.

The standards adopted by the Board specify the type of training prospective teachers must have in order to qualify for a certificate in one of 10 specialty areas such as learning disabilities, orthopedic handicaps or speech and language disorders. A major revision included in the new standards was the establishment of a common curriculum for all areas of special education. These requirements emphasize such topics as psychology of handicapped children, screening and diagnosis of handicapped students and prescriptive teaching methods. The standards require more training in the teaching of reading and mathematics as well as additional hours of required clinical experience.

Another significant step was taken by the State Board of Education during May 1981 when it approved a plan to require all prospective teachers in Missouri to take tests before their admission to teacher training programs. Under the plan adopted by the Board, teachers will be required (after September 1, 1983) to pass tests in reading, English usage and mathematics before beginning their professional teacher training programs. Plans for the test had been worked out during the preceding two years by Department staff and representatives of the Educational Conference, a long-standing organization made up of college presidents and education deans from public and private colleges in the state.

In recent years, the State Board of Education has raised the grade point average required for prospective teachers, in addition to revising certification standards for all elementary and secondary teachers. The testing plan is just another part of the Board's overall efforts to assure quality in the training of Missouri's future teachers.

Looking Ahead

I observed earlier that 1980-81 will probably be remembered as a year of "transition." Although some major questions remain, for example, we know there *will be* major changes in federal funding and policies—changes which may profoundly alter the status quo as we have come to know it during the past 15 years.

The state's overall financial condition may make it impossible for any major increases in funding for schools in the near future, but the seriousness of schools' financial needs is now widely recognized. Although there is no shortage of debate about the best way to reach our goals, I believe there is a general acceptance of the idea that new ways of funding our schools must be

(Continued on page 13)

1980 Regional Conference Participants Favor School Funding Changes

"Financing Missouri's Public Schools" was the theme of 10 Regional Educational Conferences held across the state during September and October, 1980. The conferences, sponsored by the Department of Elementary and Secondary Education, coincided with an important study of school finance being conducted for the State Board of Education by a special committee. Together, the conferences and the study committee promoted widespread discussion of current issues as well as possible new approaches to funding public schools.

About 2,600 persons attended the conferences, including school board members, school administrators, teachers, parents, students and others. The purpose of the conferences was to explain current trends affecting the financial condition and operation of public schools and to solicit opinions from a large number of Missourians about current problems—and possible solutions—in the complex area of school finance.

Discussion at the conferences focused on three main themes: *equity* (how to assure fairness for all school districts in a statewide school funding system); *sources of funds* (where revenue for schools comes from now and possible new sources); and *distribution of funds* (how revenue for schools is allocated now and how these methods could be improved).

At each conference, participants were asked to complete an opinionnaire dealing with a variety of questions relating to those three themes. Although people from all parts of the state and all types of school districts (small and large, rural and metropolitan) were represented at the conferences, response to the questionnaire was surprisingly consistent. In other words, even though persons from a small, rural district might have different financial problems and concerns than those from a suburban school district, there was little or no difference in how participants responded to most of the questions.

The 1,800 persons who responded to the questionnaire recognized that local school districts are facing serious financial problems today. There seemed to be a general consensus that the present school funding system must change in order for schools to cope with such problems as inflation, inadequate teachers' salaries, rising transportation costs and near-stagnant sources of revenue.

HIGHLIGHTS FROM THE SURVEY INCLUDED:

- Nearly three-fourths of those responding believed the state should finance a larger share of the cost of education statewide.
- Sixty percent felt property taxes supporting schools should be reduced and state-level taxes increased to offset the local revenue loss.
- Sixty-two percent agreed that supplemental revenue sources should be provided, possibly through local sales or income taxes.
- Sixty-seven percent favored the idea of a "cost-of-education index"—one of the revisions in the foundation program that was recommended by the school finance study committee.

Commenting on the results of the conferences, Commissioner of Education Arthur L. Mallory noted that the meetings helped focus attention on key trends and major issues in school finance and should help determine directions for the future.

"Although school finance is a complicated and often misunderstood topic, participants in the 1980 Regional Conferences were quite interested in learning more about the current school finance system and in discussing possible revisions in the system. All of those who took part in the conferences now have a much better understanding of the statewide significance of such issues as teachers' salaries, administration of the property tax, the school foundation program, and the need for greater equity in school finance.

"Educators and citizens now must follow up on the interest expressed during the conferences, both at the local and state levels, to assure that Missouri's public schools receive adequate financial support during the 1980s," Mallory said.

found during the 1980s in order to improve salaries for teachers and maintain the quality programs we have.

This has also been a year when educators across the country—in what appeared to be fast-growing numbers—gave serious attention to the growing body of educational research which some observers have dubbed "effective schools studies." What has happened is that, in a relatively short span of time, several studies have emerged which draw the same basic conclusions. What the "effective schools research" seems to say is: "Good schools, no matter where they are, share some common characteristics." Educators have responded enthusiastically to this research because it is practical and seems to offer tangible ways for educators to make improvements during the 1980s.

There is, I believe, a growing realization among educators that we *must* do some things to restore public confidence in education. During 1980-81, for example, the noted sociologist, James Coleman, released a study in which he concluded that students in private high schools achieve more than students in public high schools. He also emphasized his belief that private schools are more demanding and maintain a more orderly environment than public schools.

Coleman's conclusions, not suprisingly, sparked an immediate debate which will probably continue for some time. Many educators were quick to rebut Coleman's conclusions; others tried to point out flaws in his study.

Even if Coleman's report is proved invalid, the report was made and the damage was done. Right or wrong, the public heard another loud and rancorous discussion about the mediocrity of the nation's public schools.

While I continue to believe that Missouri's public schools are doing a good job, I know there are improvements to be made. In the December/January 1981 edition of *Missouri Schools* (the magazine published by the Department of Elementary and Secondary Education), there was a special 20-page report about education in Missouri, entitled "The 70s in Retrospect." That report outlined some of the progress made in Missouri's public schools during the 1970s, and I think it provides information too often ignored in recent years.

Despite my conviction that Missourians should be proud of their public schools, I cannot ignore the fact that many people seem to have a vague, but deep-seated, worry that "something is wrong" in their schools. Therefore, I believe it is important for all of us who are interested in education to face our challenges squarely and to make a commitment—during this time of transition—to achieve some tangible gains during the coming decade.

Here are some of the most pressing problems I believe many citizens are concerned about and which we must address during the 1980s:

1. Too many young people are getting through the seventh grade without adequately mastering the skills essential to learning.

2. Too many young people are dropping out of Missouri's high schools.

3. Discipline is slack in many of our schools. I am not talking about the kind of discipline requiring teachers and principals to reprimand or suspend students. I mean the kind of classroom discipline which evolves with rigorous academic assignments and high expectations for every student.

4. Some school districts do not have an instructional management system sufficiently well-organized to track the academic progress of young children throughout the development of their basic skills.

5. Behavior problems in many classrooms take far too much of the teacher's time. Students' pervasive lack of respect for authority is a serious reflection upon the home. Teachers and parents do not expect enough of students as learners. We must make our expectations clear and enlist parents' support for high academic standards and no-nonsense rules of conduct.

6. Too many parents are not supportive of schools, and their children know it. Thus, the attitude of the family detracts from school discipline, and real learning is substantially reduced from what it could be.

These are complex problems, granted. In many instances, they seem to defy our best efforts to resolve them, and they often involve factors and conditions beyond educators' control. Such caveats notwithstanding, we have a duty to solve them. It can be done, because we know many schools are doing it.

Despite financial problems confronting us, I believe now is the proper time for Missouri's public schools to emphasize, at least, these seven priorities:

1. We should embark upon a program of instructional management in the primary grades to assure close "tracking" of every youngster's progress in the basic skills. We should require the

mastery of those basic skills before the youngster is allowed to move on to another lesson. To me, this implies that every child, by the time he finishes the fourth or fifth grade, should be able to read at a literate level, should be able to handle the English language in written and spoken form, should be able to figure simple interest, and should do all these things with a consistency and accuracy not now expected of the average youngster. We can no longer tolerate the "normal curve" of achievement in basic skills in the primary grades.

2. To make instructional management possible, every teacher must know—precisely—the objectives he or she is responsible for teaching, and where his or her goals "fit" into the school's overall effort. Teachers must make the objectives crystal clear for students and parents; they should teach and test for those objectives. They must *reteach* and *retest*, particularily in relation to essential skills, until students master them.

3. Homework and rigorous academic standards should be emphasized at every grade level.

4. School officials should declare to patrons that social promotion will not be permitted. Young people who have the ability to learn should be required to get their lessons before moving on to the next level.

5. Youngsters with real or potential learning problems must be identified early—before kindergarten, ideally. They should receive special attention from counselors and teachers who understand them and care for them.

6. Early childhood and parent education should become a priority in every school district. If we could rear (through the cooperative effort of parents, schools and other agencies) a generation of children who, by the time they start kindergarten, have reached a level of social and intellectual maturity which we know is possible for them, then we should have done much to achieve superior schooling.

7. Every Missouri home must commit itself to be supportive of its children and their schools by supplying plenty of love and affirmation for its children and by encouraging them to study hard, obey their teachers and achieve at as high a level as can be reasonably expected.

Money alone, of course, cannot buy all of the solutions I have suggested. We must recognize the problems when they exist, and if necessary, we must be willing to commit the money needed to make solutions possible. More importantly, though, we must have a tough-minded commitment to academic excellence which is shared by educators, parents, students, citizens and legislators. We must make excellence our goal and be willing to strive for it.

I believe the 1980s will be the best decade ever in Missouri's public school history. We have a good foundation and the right attitude for this to be true.

Legislation

The first regular session of the 81st Missouri General Assembly enacted 26 bills directly or indirectly affecting education. While most were technical in nature, three bills were passed that may have special interest to parts of the public school community.

The General Assembly voted to make it possible for members of Missouri's Public School Retirement System to purchase credit for prior teaching and military service, for periods of service in other school retirement systems within the state, and for periods of teaching in other states. This bill also revised and updated the statutes concerning the St. Louis City Public School Retirement System.

The office of ex officio township assessor was abolished, and the office of county assessor was established in 23 counties with township organizations. The bill also allowed a percentage of the ad valorem tax collected by counties to be deducted from political subdivisions' revenue and deposited in a fund to be used for reassessment costs. This provision was challenged in court by several school districts, but the Missouri Supreme Court upheld the deduction.

House Bill 717 required that any school board which allows persons or groups access to schools to make students aware of occupational and educational opportunities also allow access for military recruiters on the same basis.

Schools Should Seek Greater Productivity, Mallory Says

Increasing educational productivity should be a priority for Missouri's public schools during the 1980s, said Commissioner of Education Arthur L. Mallory in remarks to a meeting of the state's school superintendents during August 1980.

"Today there is growing concern about America's lagging productivity in many sectors of the economy. Nationally, about three of every 10 persons are directly involved in education, making education a vital part of our economy. Thus, educators, in their own ways, must contribute to improving the nation's productivity," said Commissioner Mallory.

For schools, he emphasized, productivity is more than just a matter of money.

"It's true that school districts have an immediate incentive to be more productive in purely financial terms. Inflation has put extreme pressure on school districts' budgets. Transportation and utility costs have risen sharply. Voters seem increasingly reluctant to approve higher taxes for schools. Thus, schools have no choice but to do more with less, to find ways of operating more efficiently and to conserve energy. In these respects, I believe Missouri's public schools ARE increasing their productivity.

"The goal of increasing productivity has broader implications for schools, however," he added. "Schools, for example, should teach students the importance of productivity and instill attitudes about work which will contribute to better productivity in the future. We must help students better understand their roles as consumers and producers. Schools must do a better job teaching students how our economy works and how it relates to worldwide economic conditions.

"Whether a student is destined to be a laborer or a manager, we must emphasize the fact that his or her future welfare depends on improving productivity," Mallory said.

Mallory believes local school districts also can be leaders in increasing productivity by offering new and different educational services in their communities. Vocational education has the most obvious link with productivity, he explained, because vocational education programs help people get jobs and train for better-paying jobs.

"In the future, there will be growing demand for adult employees to learn new and different job skills. I believe there are countless opportunities for schools to work with local businesses and industries to provide necessary training that is convenient for working adults," Mallory said.

Expanding the use of school buildings after regular school hours for educational programs is another way for schools to increase productivity.

"There is no limit to the programs schools can offer to meet the needs of all age groups in a community. Schools can be centers for educational, recreational and self-improvement classes. Such programs can be self-supporting and involve far more than just the traditional school-age population," he emphasized.

Educational programs for young children and their parents also provide another avenue for local schools to increase productivity.

"Early childhood education for preschoolers is going to be one of the greatest areas of interest during the 1980s. Special programs for young children and their parents can help identify the children who may have handicaps that would interfere with learning in school. Research shows early childhood education helps children do better in school later, thus reducing the need for expensive remedial and special education programs. Early childhood education programs also provide a very positive way for parents to be involved in their children's learning and overall development," said Mallory.

The most important key to improving productivity, Mallory concluded, is for schools to set priorities and goals more effectively.

"Schools simply cannot teach everything. Thus, school officials and citizens must agree on realistic goals and concentrate on achieving them. By establishing priorities the community understands and supports, schools will be able to demonstrate more accurately their progress in meeting the needs of students and the community at large.

"Increasing productivity will mean improved teaching and better learning. I believe productivity should be a positive theme not only for educators but also for parents and students during the coming decade," said Commissioner Mallory.

Highlights of 1980-81

The 80th General Assembly appropriated $683,617,059 for the Foundation Program, providing a record increase of $90,000,000 for Missouri's public schools. This money is distributed to the public schools four times a year; it is used for special education, programs for gifted students, transportation, teachers' salaries and school operations.

Teachers' salaries in the 549 public school districts increased an average of 12.4 percent from the previous year—the largest average increase ever recorded in teachers' salaries statewide. There were 57,255 certificated personnel working in the public schools. The salary increase can be attributed, in large part, to the 15.2 percent increase in the Foundation Program.

Missouri schools were major recipients of Energy Conservation Grants awarded by the U. S. Department of Energy. According to the Department of Natural Resources, Missouri ranked second in the nation in the number of institutional building program grants received. Over two-thirds of the $5.2 million in grant awards during the 1980-81 year went to public and private elementary and secondary schools, as well as colleges and universities.

Complete implementation of the present classification system was achieved during 1980-81. There were 169 AAA, 321 AA and 58 Unclassified school districts in 1980-81. This culminated the phasing-in of new classification standards adopted by the Board in 1973.

Mrs. Karen Cooper, special education teacher in the Cooter R-IV School District (Pemiscot County), was selected as Missouri Teacher of the Year for 1980-81. She represented Missouri in the National Teacher of the Year program. The two runners-up were Mrs. Noemi Ban, a teacher at Oakville Elementary School in the Mehlville School District, and Marvin Lindmark, a teacher at William Chrisman High School in the Independence School District.

Karen Cooper, Missouri's Teacher of the Year for 1980-81, was honored at Jefferson City April 29, 1981. Two of her students accompanied her as she received recognition from Governor Bond.

Missouri school districts began efforts to eliminate the hazards posed by asbestos and asbestos-containing materials in school buildings. During its December, 1980, meeting the State Board of Education approved a state plan, as required by federal law, concerning how Missouri would operate the asbestos detection and abatement program.

Asbestos, used since the 1940s for fireproofing and insulation in buildings, was banned in 1973 because of its connection with lung cancer and lung disease. Schools are required to inspect all buildings for asbestos and to have samples of suspected materials analyzed. Eventually, all asbestos must be removed or covered so it cannot get into the air.

A museum commemorating Missouri's role in the history of education for the deaf was established at the Missouri School for the Deaf, Fulton. During May of 1981, the State Board of Education named the museum in honor of the late Burney L. Fishback, a member of the school's board of advisors for 40 years. The museum is located on the ground floor of Kerr Hall on the School for the Deaf campus.

Governor Christopher S. Bond and two of the nation's leading authorities in the field of early childhood and parent education were the featured speakers during a "Conference for Decision Makers" held at St. Louis, March 27, 1981.

The Department of Elementary and Secondary Education sponsored the meeting to increase understanding of early childhood and parent education and to build support for expanded services to young children and their parents.

Major presentations were given by Dr. Burton White, director of the Center for Parent Education (Newton, Massachusetts), and Dr. David Weikart, director of the High/Scope Educational Research Foundation (Ypsilanti, Michigan).

Priorities of the State Board of Education

The following is a summary of activities by the Department of Elementary and Secondary Education and local school districts which relate to the educational priorities adopted by the State Board of Education for 1980-81.

Some of the Board's 19 priority concerns (see box) have been priorities for several years; some of these topics were new for 1980-81. The priorities not only provide goals and direction for the Department of Elementary and Secondary Education, but also illustrate the range of the Board's interest and responsibility.

Educational Quality

1. *The Basic Skills.* Improving the achievement of Missouri's students in the area of basic skills remained the top priority of the State Board of Education during 1980-81. The Department defines "basic skills" to include oral and written language, reading, mathematics and social studies.

During 1980, two summer institutes on improving instruction in basic skills were conducted for elementary principals. Specific ways of assisting teachers in planning learning activities, assessing student achievement, monitoring student progress, and using evaluation data were topics of discussion during these three-day institutes. Improving instruction in basic skills also was the major focus of the Sixth Annual Instructional Leadership Conference, held during August.

At the beginning of the school year, regional meetings were conducted by Department staff members to assist local school personnel in using two new Department publications: *A Guild for Children's Literature, K-8,* and *A Guide to Social Studies Curriculum Development for Missouri Educators.* The *Children's Literature Guide* offers practical ideas teachers can use to encourage good reading habits and diverse reading tastes among students. It includes extensive suggested reading lists for each month at each grade level. Missouri authors are highlighted in the publication, and it includes suggestions for involving parents in the school's literature program.

The *Guide to Social Studies Curriculum Development* is a comprehensive manual and resource guide which school districts can use for organizing their social studies programs more effectively. It includes suggested goals and objectives for all grade levels; effective procedures for curriculum develop-

Priorities for 1980-81

The State Board of Education's priorities for 1980-81 were:

Education Quality
1. Basic Skills
2. Equal Access to Quality Education
3. Education of Gifted Students
4. Teacher Competency
5. Professional Development
6. Early Childhood Education
7. Instructional Management System

Urban Education
8. School Crime, Violence and Vandalism
9. School-Juvenile Justice Relationship Program

Career and Adult Education
10. Community Education
11. Evaluation of Vocational Delivery System
12. Methods of Administration for Complying with Office of Civil Rights Requirements

Educational Administration
13. Energy Conservation for School Buildings and Transportation
14. School Finance
15. Allowable Cost Rule Revision
16. Office Space

Vocational Rehabilitation
17. Service to Eligible High School Students

Special Education
18. Childhood Health and Nutrition Services
19. Preserving State and Local Governance

ment; samples of evaluation methods; ideas for in-service workshops; and many other resources.

Also during 1980-81, the Department prepared a revised edition of an earlier publication, *Basic Math Skills for Missouri's Students, K-8.* Work on this publication was completed late in the year, and the guide was distributed prior to the beginning of the 1981-82 school year. Sections dealing with use of calculators and problem solving were added to the publication.

Many Department staff members cooperated during 1980-81 to prepare a unique series of "readers" for use in grades K-3. Entitled *Kitchens Are for Kids*, the series of booklets emphasizes principles of nutrition while offering teachers and students a fun-to-use resource for reading instruction. This project was not completed during 1980-81, but the series will be distributed during 1981-82.

2. *Equal Access to Quality Education.* This topic remained a priority during 1980-81, in keeping with the State Board of Education's belief that every Missouri student has the right to equal educational opportunities. The Department's primary activity in carrying out this priority was to provide help to local school districts through its Technical Assistance Section. More than 100 school districts requested such assistance during 1980-81, and the services provided affected more than 2,000 teachers and 124,000 students. Through the technical assistance program, Department staff members help school districts with preparation of plans concerning race, sex and national-origin desegregation. This section also assists school districts in complying with Office for Civil Rights requirements.

3. *Education of Gifted Students.* The number of school districts receiving state assistance to support programs for gifted students grew to 68 during 1980-81, an increase of 10 over the previous year. In May of 1981, 80 school districts submitted applications for the 1981-82 school year.

The growing interest in education for the gifted was illustrated by the more than 250 educators and parents attending the third annual state conference on education for gifted students, sponsored by the Department during October, 1980. In addition, there were numerous workshops during the year conducted by school districts, universities and colleges and which provided direction for teachers and parents of gifted children.

The Department was awarded $140,000 in federal funds for the improvement of gifted education. Those funds were awarded on a competitive basis to three school districts for the development of special materials which can be used by all districts. Materials developed through these projects dealt with: increasing public awareness of the needs of gifted students; student screening and identification methods; and program implementation. In the summer of 1981, the Department also was awarded $114,000 in federal funds for the development and dissemination of curriculum models for gifted students, grades K-12.

For the first time, a number of public and private colleges offered summer enrichment and accelerated programs for high school gifted students.

4. *Teacher Competency.* The Missouri State Board of Education continues to recognize that teachers are the key to quality education in the public schools. In Missouri, a number of steps have been taken to assure the certification of qualified teachers and to enhance the confidence of the public in the general and professional knowledge of teachers.

During the past year, the State Board of Education adopted a set of standards and guidelines for approval of all teacher education programs in Missouri colleges and universities. Program approval means that all programs in an institution which lead to teacher certification must be officially approved by the Department of Elementary and Secondary Education through a formal, on-site evaluation by a team of trained evaluators at least once every seven years.

In another significant action during 1980-81, the State Board of Education adopted a regulation (effective July 1, 1983) to require each student entering a teacher education program to demonstrate basic competency in reading, English usage and mathematics. The regulation provides for the use of two nationally recognized tests to measure these skills. Each institution in Missouri with a teacher education program shall develop a written policy to implement the competency test requirement.

These actions are part of the Board's continuing effort to revise and improve standards for teacher training and certification.

5. *Professional Development.* In today's rapidly changing world, it is a major challenge for educators to keep abreast of new developments in education and to acquire new information and skills which they need to serve students most effectively. The Department of Elementary and Secondary Education has a dual role in providing professional development opportunities for educators. First, Department staff members provide in-service training programs directly for local school district personnel. Such programs may be offered for a single school district upon request or for many school districts via regional and statewide meetings. Programs are conducted to assist local personnel in using Department publications, and Department staff members also may provide special assistance on topics selected by local school district staff. The other role of the Department in the area of professional development is to "facilitate" staff training programs for local school districts. In this regard, the Department may help local school officials contact a person at a university who can be helpful to the staff, or school personnel may be encouraged to work with another district which has dealt successfully with a particular concern.

6. *Early Childhood Education.* There were several significant developments in this area during 1980-81.

An important new publication, *The Learning Environment in Early Childhood Education,* was distributed statewide early in 1980-81. This manual provides guidelines and checklists which educators can use for organizing an optimal preschool or kindergarten program and for evaluating or improving existing programs. This manual was developed by a consortium of educators and early childhood education specialists. A brochure also was developed for parents as a companion to this guide. Entitled, *Choosing the Right Early Education Program for Your Child—A Checklist for Parents,* the brochure provides practical suggestions about things parents should look for when selecting an educational program for a young child.

Irving A. Williamson, St. Louis, served as president of the State Board of Education during 1980-81.

An alternate for the Missouri Kindergarten Inventory of Developmental Skills (K.I.D.S.) was developed during 1980-81. This project involved the field testing of revised screening techniques and the development of statewide norms. The K.I.D.S. is widely used by Missouri school districts for screening young children at or before entrance to kindergarten.

Preschool screening is one of the major early childhood education services offered by school districts. As of October 1980, for example, 53,487 of the 58,403 children enrolled in public school kindergartens were screened at or before their entrance to kindergarten.

Perhaps the most significant event in this area during 1980-81 was the "Conference for Decision Makers" sponsored by the Department of Elementary and Secondary Education and held at St. Louis, March 27, 1981. Nearly 200 educational, governmental and civic leaders attended this meeting, entitled "Early Childhood and Parent Education—Direction for the Eighties." The purpose of the conference was to present evidence that early education is one of the best investments which schools and society can make in children's welfare and academic success during the 1980s.

As an outgrowth of that conference, two new programs were set in motion to improve early childhood and parent education programs in the state. These programs are under the direction of Burton White and David Weikert, two of the nation's best-known researchers in the field of early childhood and parent education; both were featured speakers at the "Conference for Decision Makers." In cooperation with Department staff, local school district personnel, and college and university personnel, Dr. White and Dr. Weikert participated in the planning of demonstration programs to begin during the 1981-82 school year. Dr. White, director of the Center for Parent Education (Newton, Massachusetts), is working

on a program designed to demonstrate the benefits of providing educational guidance to first-time parents during the first three years of their child's life. Dr. Weikert, director of the High/Scope Educational Research Foundation (Ypsilanti, Michigan), designed a program for training personnel in a number of school districts to use his successful program of serving "high-risk" three- and four-year-olds.

7. *Instructional Management System.* "Instructional Management System" (IMS) is a term used by the Department to describe a comprehensive effort for organizing and improving instruction in local schools. The Department is encouraging local school districts to implement their own locally developed management systems for the purpose of improving student achievement in basic skill areas. The IMS concept is based on a large body of educational research which can be summarized in the following two premises:

A. All students can learn what we teach in school to a satisfactory level—if teachers believe they can and if the school is organized to provide varying amounts of time for each student to learn.

B. For students to be self-motivated to continue learning throughout their school career and through life, they must spend more than half of their time working on tasks at which they experience a high degree of success. This implies that each student should have school work presented at a rate no faster than he can master. Learning deficits should not be allowed to accumulate.

These two concepts—varying time rather than achievement level for each student, and individualizing instruction to the extent that each student is able to experience more success than failure—introduce so many variables that some type of management system is essential.

During 1980-81, the Department began efforts to inform local school officials about the purposes of IMS. Workshops were conducted for several school districts and a special series of one-day meetings were conducted during the summer of 1981 to promote the IMS concept.

The "IMS approach" became a major emphasis and activity of the Department during 1981-82.

Urban Education

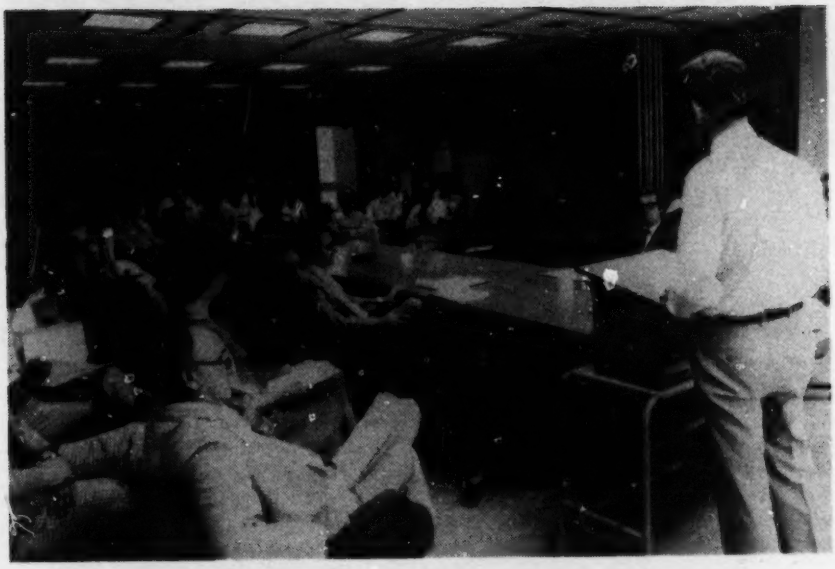
8. *School Crime, Violence and Vandalism.* The 1980-81 school year was the fourth year during which the Department's Urban Education Section worked with local school districts in planning programs and activities specifically designed to reduce the problems of crime, violence and vandalism in public schools.

During the year, the Urban Education Section sponsored nine school security workshops throughout the state; the programs were conducted by nationally known consultants on school security. Representatives of 46 school districts participated. The purpose of the workshops was to train teams of local school personnel (administrators, teachers, students, support staff, parents and security officers).

In addition to these workshops, special assistance was provided on request to school districts experiencing specific problems related to school security. In these cases, consultants visited the districts and made recommendations for policies and procedures to be used in dealing with security problems.

During the last half of 1980-81, three special workshops were conducted on the theme of "Improving School Climate." One of these programs was held in Kansas City for representatives of 11 school districts; one in St. Louis for 13 school districts; another in Jefferson City for faculty and students from five teacher training institutions. The school climate improvement process emphasizes the improvement of morale and attitudes (among students and staff) so that academic achievement may be increased and discipline problems diminshed.

9. *School-Juvenile Justice Relationship Program.* A unique publication entitled *Juvenile Justice Handbook for Missouri Schools* was published and distributed by the Department during 1980-81. This handbook was the result of work by a special Juvenile Justice Task Force. In addition to Department representatives, the task force included staff of the Hazelwood and Normandy School Districts, the St. Louis County Juvenile Court, and a special committee of school administrators, lawyers, judges, police and juvenile authorities. The handbook was distributed to school districts, police departments and juvenile court personnel all over the state. The handbook is designed to encourage cooperation among school personnel and law enforcement personnel working with children and youth. The handbook offers a number of practical suggestions for



The special school finance study committee appointed by the State Board of Education met monthly from June to December, 1981, and proposed major revisions in Missouri's school funding system.

school officials to use in establishing policies and procedures for dealing with juvenile offenders.

Career and Adult Education

10. *Community Education.* Community education activities in Missouri's public schools multiplied during 1980-81. Because the State Board of Education has recognized community education as a priority concern, the Department encourages school districts to establish or expand community education services, and Department staff provide assistance to local school personnel in developing policies and procedures for community education. During the past year, the Department sponsored three awareness workshops on community education which were attended by representatives of 140 school districts.

Nearly 140 school districts offered community education during 1980-81 and served more than 231,000 adults. More than $5 million was used for community education programs during the year.

School districts continue to recognize the benefits of community education as a means of serving more than just school-age children and for providing a wide range of educational, recreational, social and cultural services for the entire community.

11. *Evaluation of Vocational Delivery System.* Missouri's "delivery system" for vocational education programs includes comprehensive high schools, area vocational schools, community/junior colleges and four-year institutions. Training for vocational education teachers and counselors is provided on three of the University of Missouri campuses and throughout the state university system. For some years, the Department has used a system by which both the product and the process of each vocational education program is evaluated at least once every five years. In order to evaluate local program operations as well as the state's overall vocational education system more effectively, revised evaluation instruments and procedures were developed during 1980-81. The new evaluation procedures are to be implemented during 1981-82. The major changes include the development of a new "Vocational Education Evaluation Summary" form and a total-program review process by local self-study committees. The Department believes these changes will provide more effective evaluation of the state's vocational education system and identify particular issues and problems which may require special study.

12. *Methods of Administration for Complying with Office for Civil Rights Requirements.* The Department of Elementary and Secondary Education's Division of Career and Adult Education is required to monitor local schools' compliance with Office for Civil Rights (OCR) regulations. During 1980-81, the Department developed a document entitled "Methods of Administration" which is an implementation plan for carrying out the OCR guidelines.

Under this plan, Department staff conducted "desk audits" of 20 percent of the school districts offering vocational programs. On-site reviews were then conducted in one-fourth of those school districts. Department staff developed forms to be used during the on-site review with the cooperation of public school personnel. In-service training was provided for Department staff, in cooperation with OCR personnel, to prepare them for conducting local reviews.

During 1980-81, Department staff completed the necessary desk audits and conducted on-site reviews in 10 area vocational schools and 14 comprehensive high schools. After each review, findings and recommendations were sent to the school district. In response, the districts submitted voluntary compliance plans, describing corrective measures that would be undertaken and providing a timeline for implementation.

Educational Administration

13. *Energy Conservation for School Buildings and Transportation.* In cooperation with the Missouri Department of Natural Resources, the Department's School Building Services Section has provided an "energy audit service" to local school districts. Known as the Missouri School Energy Conserva-

tion Service, the audit produces an energy profile for individual school buildings with comparisons to energy-efficiency standards. During 1980-81, 71 school districts participated in this survey; 174 profiles involving 433 different school buildings were prepared.

An evaluation of the effectiveness of the energy audits indicated that out of 802 recommendations for capital modifications involving significant expense, 185 were implemented. In addition, 890 recommendations for inexpensive modifications were made, of which 678 were implemented. The 165 schools responding reported significant energy savings averaging $3,886 per school as a result of their conservation efforts.

Promoting greater efficiency in school transportation also was a priority of the State Board of Education. School districts were encouraged, through a series of guidelines and operating tips, to reduce fuel consumption and improve efficiency. Closer attention was given to the approval of school bus routes; short route extensions off of main roads into cul-de-sacs and dead-ends were not approved. The State Board of Education also adopted an amendment to its regulations for payment of state transportation aid to provide incentives for more efficient service. As a result of these measures, there was a reduction of more than one million route miles during 1980-81.

14. *School Finance.* The State Board has emphasized that quality education must be accompanied by adequate financial resources. Although the state provided a major increase in funding for local schools through the foundation program during 1980-81, there were growing concerns about the continuing effects of inflation, the difficulty in obtaining a two-thirds majority for local levy increases, the low level of teachers' salaries in many school districts and the formula used to distribute state aid. As a result of these concerns, the State Board of Education appointed a School Finance Study Committee consisting of teachers, school board members, administrators, legislators and business and professional people with an interest in school finance. Staff members of the Education Commission of the States served as consultants to the committee.

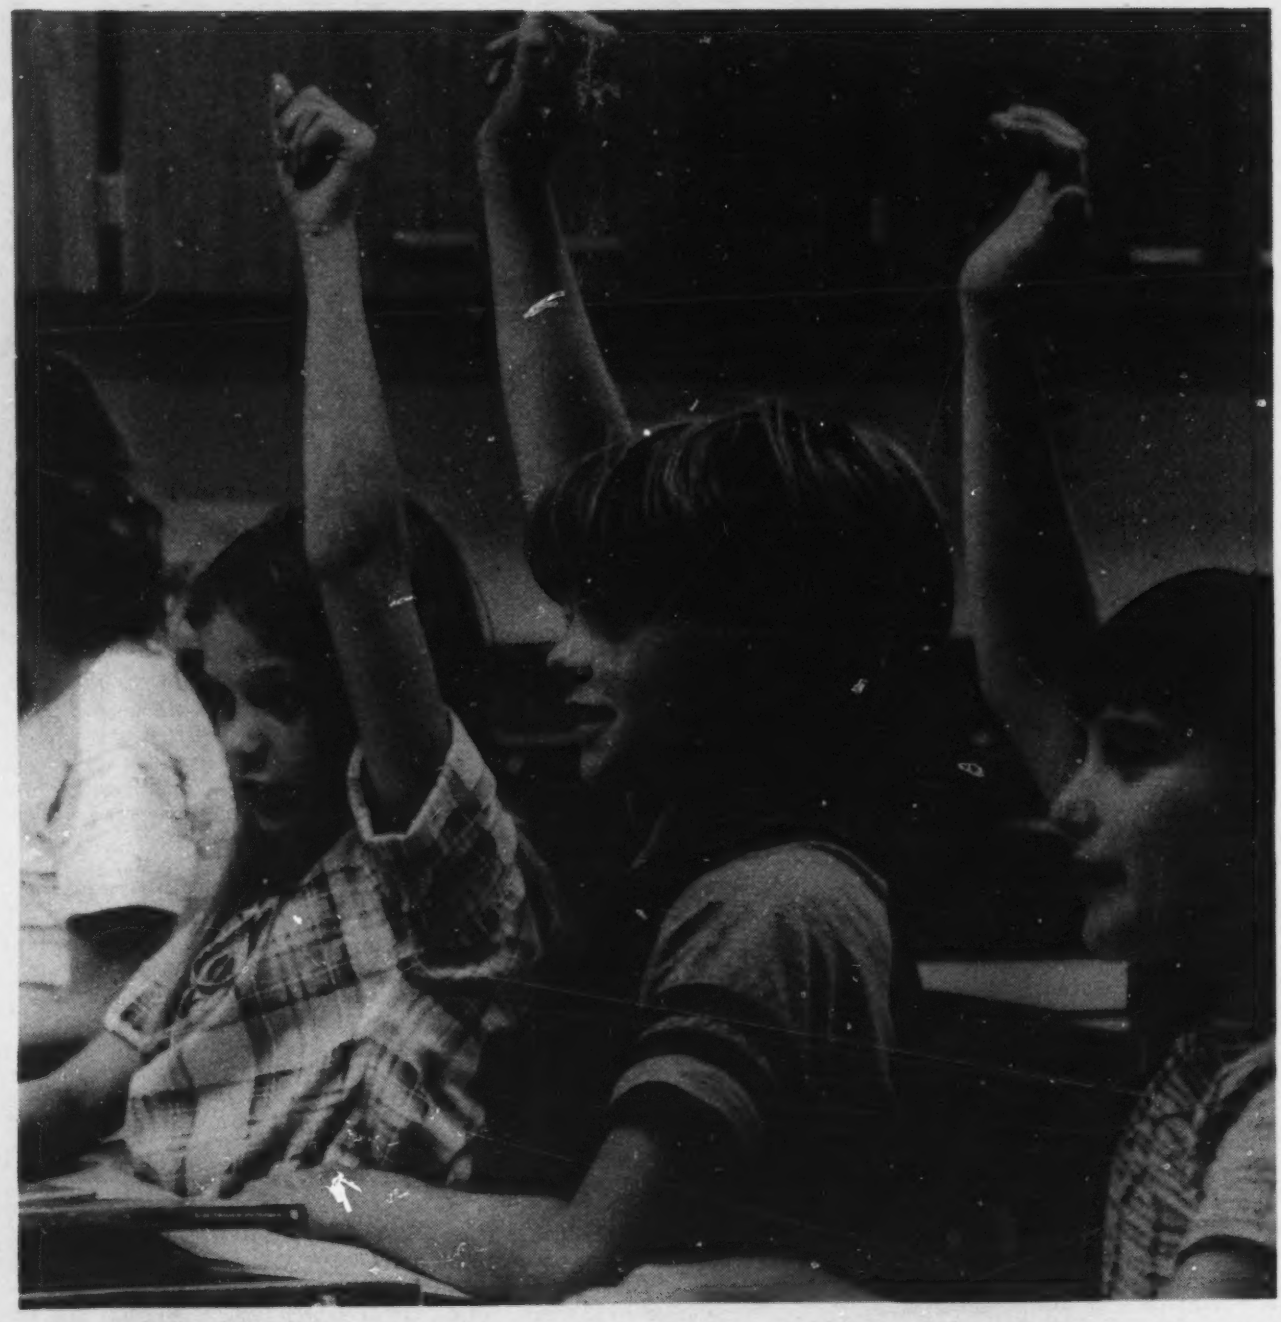
The committee's report was submitted to the State Board in December 1980. It recommended a one-cent increase in the sales tax to be used for education. One-half of the new money would reduce property taxes in school districts, and the other half would be new revenue for the schools. The report also recommended that certain changes be made in the state aid formula and the way in which other funds are distributed to schools. After discussion, the State Board of Education adopted substantially all of this report and sent copies, with its endorsement, to the members of the General Assembly. A bill incorporating the major provisions of the report was introduced; it passed in the House of Representatives but was defeated in the Senate.

15. *Allowable Cost Rule Revision.* In order to promote greater efficiency in transportation service, the State Board of Education adopted a change in the formula for distributing state transportation aid. This formula is contained in the Board's rule on allowable cost. A "cost factor," based on the relationship between a school district's annual cost of transportation per student mile compared to its statistically predicted cost per student mile, was added to the formula. This formula change was discussed at length during the 1979-80 school year and along with other changes in route approval procedures has had the effect of promoting more efficient transportation service.

16. *Office Space.* The offices of the Department of Elementary and Secondary Education in Jefferson City are housed in seven different locations. Space has been inadequate in some of these offices for several years, and the consolidation of facilities would add to the Department's operating efficiency. The State Board of Education included an office building in its budget request, but due to tight state finances, funds for this project were not appropriated.

Vocational Rehabilitation

17. *Service to Eligible High School Students.* State and federal laws require school districts to meet the needs of handicapped students. During the past decade, schools have made a major commitment to complying with that mandate, but there are still several areas where extra services are sometimes needed. These extra services often can be provided by the Division of Vocational Rehabilitation. The Division of Vocational Rehabilitation presently has cooperative agreements with 137 school districts—up from 130 a year ago—for providing services to eligible students. The



Improving student achievement in basic skills remained the State Board of Education's top priority during 1980-81.

programs are designed to help handicapped students train and prepare for suitable employment.

Special Education

18. *Childhood Health and Nutrition Services.* During 1980-81, staff members of the Department's Special Education Section worked with selected school districts in an effort to make better use of the Early Periodic Screening, Diagnosis and Treatment program (EPSDT), offered through the Missouri Division of Health. In addition, staff members cooperated with the Missouri Academy of Pediatrics and the Division of Health to conduct training sessions for pediatricians throughout the state. These training programs emphasized the requirements of state and federal special education laws and the role of the physician in diagnosing and meeting students' needs.

Training workshops which emphasize the importance of health and nutrition for students also were conducted for personnel in the State Schools for Severely Handicapped. These programs dealt with a variety

of concerns: medication and seizures, physical examinations, obesity, metabolic and endocrine problems, nutritional and dietary planning, feeding techniques for the severely handicapped and others. Nurses in several State Schools for Severely Handicapped established "diet clubs" to help young adults combat obesity. A special "outreach instructor" at the Missouri School for the Deaf has been working closely with parents of preschool deaf children, promoting greater awareness of children's health and nutrition needs. A series of training programs (to be made available thoughout the state via videotape) also has been developed for staff in the State Schools for Severely Handicapped on the topic of child abuse—including health and dental abuse as a result of neglect.

19. *Preserving State and Local Governance.* This topic was named as a priority by the State Board of Education because of its concern that federal mandates in the area of special education have become increasingly demanding in recent years. These mandates have created administrative problems and increased the cost of providing programs in many school districts. The Department's major response has been for the Assistant Commissioner of the Division of Special Education to present testimony before Congress on specific issues. Such testimony has been presented by the National Association of State Directors of Special Education and the Council of Chief State School Officers; it has emphasized areas of concern which state officials believe could best be managed at the state and local levels.

Educational Priorities for 1981-82

The Missouri State Board of Education formally adopted the following topics as educational priorities for the 1981-82 school year.

1. **Instructional Management Systems.**

The Board encourages all school districts to adopt an "instructional management system" (IMS) as a practical means of defining objectives for teaching, recording the progress of individual students toward the objectives and reporting student achievement in terms of the objectives. This approach may be used in all subjects and grade levels. The most productive application, however, at least initially, is in connection with essential learning objectives—the basics.

2. **Basic Skills.**

Student achievement in basic skills—the essential tools of learning—remains a serious public concern. Schools must continue their emphasis in this area. The "instructional management system" concept appears most promising for improving basic skills achievement. Greater commitment from students and increased involvement of parents also are needed for schools to meet public expectations in this area.

3. **Vocational Education.**

State and local officials must seek to expand vocational education opportunities for Missourians—students and adults. Adequate funding is essential for vocational education to expand and keep pace with changing needs. Vocational programs also must be planned and coordinated to meet current and emerging labor market needs in different parts of the state.

4. **Teachers' Salaries and School Finance.**

Despite substantial increases in state funding in recent years, teachers' salaries have declined in terms of "buying power" and are not competitive with many other occupations. Inadequate salaries are contributing to a spreading shortage of teachers in Missouri. A large portion of state financial aid for local schools is earmarked for teachers' salaries. Thus, the issue of teachers' salaries is a major part of the overall effort to assure adequate funding for all public school programs.

5. **Early Childhood Education.**

The educational, social and economic benefits of early childhood education have been demonstrated repeatedly by careful research as well as by existing programs in Missouri school districts. Public schools, in cooperation with other agencies, should provide appropriate services for preschool children and their parents-particularly services which can reduce or eliminate the long-range effects of physical and mental handicaps.

LIST OF TABLES AND GRAPHS

26 **Financial Data:**
- Receipts by Sources
- Revenue & Non-Revenue Receipts
- Summaries of Receipts & Expenditures
- Summary of Tax Levies
- Summary of Valuation, Levies, Property Value, & Indebtedness
- Summary of Average Tax Levies
- Summaries of Bonds Outstanding & Issued, & Short Term Borrowing
- Program Apportionments & Payments
- Payment Record
- State Expenditure Factors

32 **Pupil Data:**
- Summary of Average Daily Number of Pupils Transported
- Summary of Public School Pupil Transportation
- Live Births
- Summary of Accumulated Enrollment
- Number of Districts by Fall Enrollment Range (Grades 9-12)
- Number of Districts by Fall Enrollment Range (Grades K-12)
- Fall Enrollment by Grades
- Summary of Accumulated Enrollment
- Summary of Eligible Pupil Data
- Summary of Average Daily Attendance
- Summary of Graduates
- Summary of Number in Graduating Classes
- Follow-Up Data on Graduates

37 **Teacher Data:**
- Summary of Number of Teachers
- Average Annual Teachers' Salaries
- Breakdown of Teachers by Degree
- Summary of Tenure & Experience (Present Position)
- Summary of Tenure & Experience (Total Years)
- Summary of Teacher Turnovers
- Certificates Issued
- Teachers' Certificates Issued

43 **Classification and District Data:**
- Summary of Number of School Districts
- Classification Data

44 **Course and Program Data:**
- Courses Offered in Subject Matter Fields
- Summary of Courses Offered
- Vocational Education
- Adult Education
- Special Education
- Vocational Rehabilitation
- Testing & Assessment Program Data
- School Food Services

* Resident I data indicate attendance in home districts.
Resident I plus Non-Resident data equal state total ADA.
† Resident II data indicate attendance outside home district.
‡ Kindergarten pupil attendance—two sessions equal one day attendance.

TABLE 22
SUMMARY—AVERAGE DAILY ATTENDANCE SINCE 1977

Year	Elementary Districts	High School Districts	State Totals
1976-77	12,682	836,022	848,704
1977-78	12,219	812,071	824,290
1978-79	11,993	786,143	798,136
1979-80	11,496	767,344	778,840
1980-81	10,679	743,500	754,179

TEACHERS' CERTIFICATES ISSUED BY DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION SINCE 1977

	1976-77	1977-78	1978-79	1979-80	1980-81
Number of Certificates	38,905	38,141	34,427	30,379	40,321

TABLE 34
SUMMARY OF NUMBER OF SCHOOL DISTRICTS

School Year Ending June 30	School Districts		
	Total	High School*	Six-Director Elementary ±
1976	563	456	107
1977	562	457	105
1978	557	456	101
1979	556	456	100
1980	554	454	100
1981	549	456	93

*The term high school represents districts operating both elementary and high schools.

± The term elementary represents districts operating elementary schools only.

TABLE 35
CLASSIFICATION DATA
A. SUMMARY OF SCHOOL DISTRICT CLASSIFICATION—1980-81

	AAA	AA	U	Total
Classified High School Districts	167	281	8	456*
Classified Elementary Districts	2	40	50	92
State Institutional Schools	---	---	---	10

*456 districts maintained 509 Senior High Schools; 53 districts operated Kindergartens.

B. HIGH SCHOOLS HOLDING MEMBERSHIP IN THE NORTH CENTRAL ASSOCIATION—1980-81

Public Senior High Schools	152
Public Junior High/Middle Schools	16
Public Elementary Schools	27
High Schools of State Institutions	3
Non-Public High Schools	39
Total	237

TABLE 37
SUMMARY OF COURSES OFFERED IN SUBJECT MATTER FIELDS

Number of Course Titles: There is a listing of course titles for each major area published each year (see Table 36). This number is the aggregate of that listing by area.

Duplicated Count of Students: If a student is enrolled in more than one course in a major area, the student will be counted for each course.

Percent of 9-12 Students Enrolled: This is the ratio of students enrolled in the major area divided by accumulated state enrollment for 9-12 grades. The comparison of years shows activities of areas.

Year	# of Course Titles	Duplicated Count of Students	% of 9-12 Enrolled
Agriculture			
80-81	29	23,061	7.9

B. PROGRAMS DATA
a. Special Education Programs
1980-81

Category	Total Number of Children (Duplicated Count)	Total Number of Teachers	Approved Reimbursement
Aides	...	2,283.00	$4,566,000
Homebound/Contractual	2,336	...	758,318*
Orthopedic	889	91.00	870,416
Deaf And Hard of Hearing	869	104.25	997,154
Blind and Partially Seeing	179	25.00	239,125
Mentally Retarded	19,420	1,539.25	11,042,613
Speech Defective	44,084	877.25	8,390,924
Learning Disabilities	32,595	2,145.25	20,519,378
Behavior Disorders	5,776	564.50	5,399,456
Remedial Reading	69,432	1,466.50	8,184,573
Professional Personnel	...	1,068.00	4,272,000
Severely Handicapped	689	81.00	774,766
Early Childhood	1,189	88.75	848,899
Totals	177,458	10,333.75	$66,863,622

*Paid in September 1982 for Homebound/Contractual Services during FY 1981.

b. State Schools for Severely Handicapped—Statistical Summary

Attendance Schools	Aggregate Days Membership	Days in Session	A.D.M.	Total Days Attendance	A.D.M.	No. Pupils Transported
64	436,016	174	2,506	379,798	2,183	2,687

c. During fiscal 1981, 81 workshops paid 4,503 handicapped workers total wages of $4,586,222, averaging $.79 per hour. State aid paid to those workshops totaled $5,105,667.

C. MISSOURI SCHOOL TRUST FUNDS

Section 162.790 (5) RSMo., authorizes the State Board of Education to accept grants, gifts, donations, or bequests for the use of the Missouri Schools for the Blind, for the Deaf, and for the Handicapped Children to deposit same in the Schools' Trust Fund in the State Treasury, or to invest such funds in stocks, bonds, deeds of trust, or any other investment securities in the amounts and in the proportions that the State Board of Education prudently selects.

The act further provides that "moneys in the School for the Blind Trust Fund or in the School for the Deaf Trust Fund or the School for the Handicapped Children Trust Fund shall not be appropriated for the support of the schools in lieu of general state revenues but shall be appropriated only for the purpose of carrying out the object for which the grant, gift, donation, devise or bequest was made," as recommended by the State Board of Education.

a. SCHOOL FOR THE DEAF TRUST FUND
BALANCE SHEET
June 30, 1981

Assets		
Cash in bank—Boatmen's National Bank of St. Louis		$ 235.13
Cash in Bank—State Treasury		24.45
Investments:		
Sears Roebuck Acceptance Corp. Variable Interest Note	$15,000.00	
Government Bonds (M/V—$83,892.20)	84,993.25	
Total Investments		99,993.25
Total Assets		$100,252.83
Fund Balance		
Fund Balance		$100,252.83
Total Fund Balance		$100,252.83

b. SCHOOL FOR THE DEAF TRUST FUND
ANALYSIS OF CHANGES IN FUND BALANCE
July 1, 1980—June 30, 1981

Balance, July 1, 1980		$ 89,940.35
Add:		
Interest Received	$10,189.55	
Cash Gifts—Estates	1,100.00	11,289.55
Less:		
Bank Fees	$ 537.94	
Memorial Expense	439.13	977.07
Fund Balance, June 30, 1981		$100,252.83

c. HANDICAPPED CHILDREN TRUST FUND
BALANCE SHEET
June 30, 1981

Assets		
Cash in bank—Boatmen's National Bank of St. Louis		$ 748.34
Cash in bank—State Treasury		1,263.47
Investments:		
Sears Roebuck Acceptance Corp. Variable Interest Note	$20,000.00	
Government Bonds (M/V—$29,706.25)	29,968.70	
Total Investments		49,968.70
Total Assets		$51,980.51
Fund Balance		
Restricted Fund Balance*		$34,451.87
Unrestricted Fund Balance		17,528.64
Total Fund Balance		$51,980.51

*Restricted as follows: $8,587.02—Mapaville State School No. 2, gift from Lillian Kley Estate. $3,730.05—Maple Valley State School, gift from Gladstone Fraternal Order of Police. $22,074.80—B.W. Shepherd State School, gifts from Adele S. Holt Estate ($6,661.23), James Lynn Estate ($2,960.36), and Peppin Estate ($12,453.21).

d. HANDICAPPED CHILDREN TRUST FUND
ANALYSIS OF CHANGES IN FUND BALANCE
July 1, 1980—June 30, 1981

Balance, July, 1980		$49,893.41
Add:		
Interest Received	$6,373.63	
Gain on Sale—Investments, Land & Building	375.44	6,749.07
Less:		
Bank Fees	$ 50.00	
Equipment Purchase*	4,611.97	4,661.97
Fund Balance, June 30, 1981		$51,980.51

*Equipment purchased for Maple Valley State School from funds restricted for this purpose.

e. SCHOOL FOR THE BLIND TRUST FUND
BALANCE SHEET
June 30, 1981

Assets		
Cash in bank—Boatmen's National Bank of St. Louis		$ (428.16)
Cash in bank—State Treasury		26,553.34
Investments:		
Variable Interest Notes	$129,000.00	
Government Bonds (M/V—$632,905.25)	649,351.75	
Corporate Bonds (M/V—$565,594.78)	769,743.75	
Common Stocks (M/V—$689,552.99)	504,327.44	
Real Estate Mortgages	1,052.57	
Total Investments		2,053,475.51
Furniture and Fixtures		84,767.20
Land and Building—Recorded at cost		574,224.98
Total Assets		$2,738,592.87
Fund Balance		
Restricted Fund Balance*		$ 20,000.00
Unrestricted Fund Balance		2,718,592.87
Total Fund Balance		$2,738,592.87

*Restricted as follows: To assist graduates in starting life on self-supporting basis. Gift from Eula E. Reynard Estate.

f. SCHOOL FOR THE BLIND TRUST FUND
ANALYSIS OF CHANGES IN FUND BALANCE
July 1, 1980—June 30, 1981

Balance, July 1, 1980		$2,403,867.04
Add:		
Cash Dividends	$ 32,605.41	
Interest Received	158,508.17	
Cash Gifts—Estates	152,262.41	
Stock Gifts—Estates	7,027.07	
Gain on Sale—Investments, Land & Building	1,402.10	351,805.16
Less:		
Bank Fees	$ 8,714.93	
Therapeutic Expense	8,312.39	
Filing Fees	50.00	
Tax Expense	2.01	17,079.33
Fund Balance, June 30, 1981		$2,738,592.87

TABLE 41
VOCATIONAL REHABILITATION

A. Summary Data for Year Ending September 30, 1981

Persons Served and Rehabilitated		Average Cost	
Served	Rehabilitated	Per Case Served	Per Case Rehabilitated
36,034	6,766	$650.91	$2,755.96

B. Services and Cost to the 6,766 Clients Rehabilitated

Services	Number of Clients with Cost	Total Cost
All Services*	6,766	$11,719,543

*The costs represent only amounts spent for services purchased by the agency. Some services have been obtained free of charge or may have been paid for, wholly or in part, by other organizations, interested individuals, or by the client himself. Excludes cost of administration, counseling, guidance and placement.

C. Jobs After Rehabilitation

Professional, Technical & Managerial Occupations	842
Clerical and Sales Occupations	791
Service Occupations	1,549
Farming, Fishery, Forestry, & Related Occupations	184
Industrial Occupations	1,880
Work in Sheltered Workshops	445
Homemakers (own home) and Other Unpaid Family Workers (own family)	1,037
Total	6,766

D. Earnings At Referral and At Closure for 6,732 Rehabilitants

Weekly Earnings at Referral	Number of Rehabilitants	Weekly Earnings at Closure	Number of Rehabilitants
None	5,674	None	1,124
$01-19	81	$01-19	625
$20-39	98	$20-39	369
$40-59	124	$40-59	252
$60-79	116	$60-79	265
$80-99	97	$80-99	221
$100+	576	$100+	3,910
Average weekly earnings at referral	$16	Increase in average weekly earnings	$95*
Average weekly earnings at closure	111		

*With an increase in average weekly earnings of $95 for the 6,766 rehabilitants, the total annual increase in earnings would amount to $33,424,040.

E. Disability Determinations Section processed 63,986 cases during fiscal year 1981.

TABLE 42
TESTING AND ASSESSMENT
PROGRAM DATA

A. Summary of 1980-81 BEST Test

BEST	Percent Passing Test
Reading	91.5%
Math	72.9%
Govt./Econ.	82.3%
All Three Subtests	67.5%

Passing Criteria: At least 1 of 3 items correct on each of the 13 objectives and at least 75 percent of the subtest items correct.
Testing Dates: March 1-15, 1980
Total number of eighth graders taking all three Subtests—64,737
Total number of eighth grade students—66,639

B. BEST Reading/Language Arts Subtest

OBJECTIVES (Stated in Abbreviated Form)	% answering correctly at least: 1 of 3	2 of 3 (Mastery)	3 of 3
1. Identification and interpretation of medical terms	99.7	98.1	89.3
2. Identification and interpretation of labels and symbols	99.8	99.2	95.2
3. Interpetation of labels in selection for specific purpose	99.3	95.8	79.5
4. Proper response to commonly used signs	99.8	99.0	92.2
5. Use reference materials and sources to obtain information	99.1	94.9	76.1
6. Recognize main ideas	98.8	94.0	74.0
7. Note purpose of writer	99.3	92.5	69.5
8. Recognize a correctly completed form	100.0	98.2	83.0
9. Interpret business correspondence and contracts	99.6	95.6	74.9
10. Identify information in various sections of a newspaper	98.9	94.9	79.6
11. Interpretation of common documents (menu, ballot)	98.6	92.8	71.1
12. Follow written directions	100.0	98.6	92.1
13. Interpretation of graphic information	98.9	92.2	68.2
Number of students tested:		58,673	
Number of students passing this subtest:		53,711	(91.5%)

Locally Administered Objectives	Percent Passing	
14. Speak effectively in business and social situations	92.4	
15. Write sentences using acceptable grammar, punctuation, and spelling	87.1	
16. Use reference materials and sources	91.8	
17. Recognize main idea and details of an oral presentation	90.7	
18. Complete a business form correctly	92.2	
19. Communicate by reading orally	93.1	
20. Locate Parts of a newspaper	92.9	
21. Follow oral and written directions	92.3	
Number of students passing	42,205	(77.0%)

C. BEST Mathematics Subtest

OBJECTIVES (Stated in Abbreviated Form)	% answering correctly at least: 1 of 3	2 of 3 (Mastery)	3 of 3
1. Addition and subtraction of whole numbers	99.7	97.5	82.0
2. Multiplication and division of whole numbers	99.5	97.2	87.5
3. Addition and subtraction of fractions	99.5	97.2	76.5
4. Multiplication and division of fractions	97.4	90.2	70.5
5. Business and consumer transactions	97.2	87.1	58.0
6. Measurement of length, area, and volume	90.9	67.0	31.8
7. Measurement of time and temperature	98.7	93.1	59.7
8. Interpret charts, graphs, tables, maps, scale drawings	99.0	92.7	64.5
9. Ratio and proportion	98.4	91.6	65.2
10. Interpret probability and statistical statements	97.9	93.4	78.8
11. Determine averages	87.3	77.6	59.8
12. Identify horizontal, vertical, parallel, intersecting lines	97.8	88.8	63.2
13. Identify simple plane and solid geometric figures	98.6	91.1	67.5
Number of students tested:		58,680	
Number of students passing this subtest		42,774	(72.9%)

Locally Administered Objectives	Percent Passing	
14. Measure length, volume, weight, time and temperature	90.0	
15. Estimate results and answers to computational problems	89.5	
Number of students passing	50,122	(85.4%)

D. BEST Government/Economics Subtest

OBJECTIVES (Stated in Abbreviated Form)	% answering correctly at least: 1 of 3	2 of 3 (Mastery)	3 of 3
1. Understand terms such as "democracy"	99.5	97.0	85.5
2. Understand process of making, enforcing, interpreting laws	96.0	79.4	42.1
3. Understand rights guarateed to a citizen	99.4	94.9	76.5
4. Recognize limits on individual rights and freedoms	99.1	96.7	83.5
5. Understand basic responsibilities of citizenship	99.5	97.9	83.1
6. Understand roles of government officials	98.0	85.9	47.2
7. Understand factors related to production of goods and services	99.2	96.3	84.8
8. Understand and apply information about how private business functions	98.2	92.6	73.6
9. Understand how government functions in U.S. economy	98.4	92.2	63.3
10. Predict how change in economy will result in other changes	98.1	93.0	77.4
11. Make rational personal economic decisions	97.4	89.6	63.0
12. Recognize the rights and responsibilities of consumers	98.5	93.5	73.5
13. Understand use and handling of money and investments	96.1	86.1	61.6
Number of students tested:		58,592	
Number of students passing this subtest		48,217	(82.3%)

E. Statewide Twelfth Grade Assessment Results—October, 1980

Goal / Subgoal	1980 Average Percent Correct	1979 Average Percent Correct	Difference 1979 to 1980
I. Intellectual Development			
A. Communication	71.50	70.76	0.74
B. Quantitative Thinking	55.79	55.72	0.07
C. Social Processes	65.24	65.67	– 0.43
D. Scientific Understanding	52.47	52.06	0.41
E. Decision Making	51.17	51.61	– 0.44

I. Statewide Results of 1980 Fourth Grade Criterion Referenced Test

Reading

Object Statement	% Mastered	% of Correct Responses for each item		
Domain—Word Analysis				
1. Indicate the letter that is silent within a word	75	89	88	85
2. Divide a two- or three-syllable word into syllables	47	89	61	69
3. Indicate the correct plural form of a singular word	36	67	51	62
4. Identify the word that has a prefix	40	66	56	67
5. Identify the word that has a suffix	27	64	44	58
6. Identify the two words which form a contraction	82	92	89	91
7. Indicate words that are synonyms	24	68	55	47
8. Indicate words that are antonyms	27	55	51	64
9. Recognize antecedents of pronouns	43	71	70	63
Domain—Factual Comprehension				
10. Use context to determine the meaning of an unknown word	8	30	40	44
11. Use context to determine the meaning of a word with multiple meanings	38	64	65	76
12. Recognize the main idea of a passage when stated explicitly	55	70	81	75
13. Answer questions about specific details	42	58	84	72
14. Identify the sequence of events in a passage	63	77	82	81
15. Read and follow directions	40	58	65	78
Domain—Interpretive and Critical Comprehension				
16. Recognize the main idea (inferred)	9	49	39	27
17. Identify implied cause and effect relationships	12	24	74	58
18. Predict what will happen later	23	65	58	45
19. Draw conclusions	32	75	51	63
20. Identify irrelevant material	32	75	73	41
21. Interpret emotional reactions of characters	45	79	79	59
22. Interpret figurative language (in context)	44	73	69	61
23. Distinguish fact from opinion	26	56	54	45
24. Distinguish the fanciful from the real	44	79	66	62
Domain—Study Skills				
25. Describe the function of a book index, table of contents, and appendix	11	25	60	57
26. Locate words in a dictionary	22	47	38	47
27. Locate information in an encyclopedia	8	25	70	33
28. Find information using the library catalogue card	14	55	65	28
29. Read maps	19	53	63	42
30. Read a summary chart (timeline)	24	50	52	58

Average number of objectives mastered = 10.1
Average percent of objectives mastered = 34
Average percent of correct response = 61
Number of students tested = 20,341
Mean raw score = 55.07
Standard Deviation = 16.74
*Mastery = 3 of 3 items correct for an objective

Mathematics

Object Statement	% Mastered	% of Correct Responses for each item		
Domain—Numeration				
1. Determine place value of numerals through hundred thousands	53	77	63	82
2. Read numerals through one million	56	79	73	84
3. Read numerals through millions, using expanded notation	57	74	82	73
4. Round numbers to the nearest ten, hundred, thousand, ten thousand	18	38	67	67
Domain—Addition and Subtraction				
5. Add two 2-digit through 4-digit numbers, regrouping	68	87	78	86
6. Perform column addition of three 2-digit numbers, regrouping	68	84	81	83
7. Subtract 2-digit through 4-digit numbers, regrouping	36	69	48	60
8. Solve one-step word problems of addition or subtraction, no regrouping	63	86	87	71
9. Express the value of a group of coins less than $1	75	90	88	83
Domain—Multiplication and Division				
10. Multiply 1-or 2-digit nimbers by 1-digit numbers through the table of 9's, no regrouping	46	57	59	57
11. Multiply 2-digit numbers by 1-digit numbers, regrouping	26	51	53	39
12. Multiply 3-digit numbers by 1-digit numbers, regrouping	19	39	48	42
13. Multiply 2-digit numbers by 2-digit numbers regrouping	4	22	23	17
14. Divide 1-or 2-digit numbers by 1-digit numbers, no regrouping or remainder	36	54	66	60
15. Divide 2-digit numbers by 1-digit numbers, regrouping and/or remainder	13	36	44	39
16. Solve one-step word problems of multiplication or division, no regrouping	30	57	43	64
17. Determine the average of a set of numbers, no remainder	2	12	10	20
Domain—Fractions				
18. Identify fractional parts of a region	38	54	64	57
19. Identify a fractional part of a set	15	28	52	53
20. Identify fractions in simplest form	26	67	46	63
21. Identify equivalent fractions	2	22	34	10
22. Add and subtract fractions with like denominators	5	17	32	32
23. Solve decimal problems with money, addition and subtraction regrouping	19	57	58	35
Domain—Geometry				
24. Distinguish among lines, line segments, rays and angles	15	49	41	55
25. Identify simple plane geometric figures	79	84	88	88
26. Find the area of simple plane geometric figures by counting squares	14	71	20	75
27. Find the perimeter of simple polygons, given dimensions of all sides	58	66	78	79
Domain—Graphs				
28. Identify points on a grid, given the coordinates	10	28	25	36
29. Interpret graphs	42	86	51	73
Domain—Time Telling				
30. Tell time by minute intervals	35	57	60	61

Average number of objectives mastered = 10.3
Average percent of objectives mastered = 34
Average percent of correct responses = 57
Number of students tested = 20,251
Mean raw score = 51.04
Standard Deviation = 13.94
*Mastery = 3 of 3 items correct for an objective

J. Statewide Results of 1980 Criterion- and Norm-Referenced Sixth Grade Test

Part I: Criterion-referenced section

Reading

Objective: (Learner will...)	% Mastered	% of Correct Responses for each Item		
1. Understand medical terms and instructions	58	56	49	68
2. Understand caution labels on bottles, etc.	80	94	77	69
3. Select use of items based on consumer terms	85	87	91	76
4. Respond properly to road signs	79	62	86	90
5. Follow simple directions	85	87	84	85
6. Understand common information signs	65	87	65	42
7. Use building floor plan and schedule	69	85	79	44
8. Recall facts from handbook on safety	58	58	72	44
9. Know how to use a street guide and its map	53	59	69	52
10. Be able to fill in blanks on a form	61	73	61	48
11. Select use of product based on ingredients	75	86	85	53
12. Know how to use telephone directory	84	86	89	76
13. Know how to use a building directory	84	93	70	89
14. Identify items from a business statement	65	79	64	52
15. Know how to use an entertainment guide	74	91	45	86

Part II: Norm-referenced section

The norm-referenced section of the test was normed against a national sample by Science Research Associates, Inc. (SRA), using SRA Achievement Series Scores Reading Form ES Green. The average score for the 25,487 Missouri students taking this test in 1979-80 was at the 58 percentile, compared to the national norm of 50 percent.

Mathematics

Objective: (Learner will...)	% Mastered	% of Correct Responses for each Item		
1. Know how to make change	75	72	77	77
2. Find total income from avg. weekly income	90	89	90	91
3. Calculate wages from hourly rate and hours	66	81	57	61
4. Determine and compare unit costs	43	44	42	39
5. Find take home pay from salary and deductions	69	68	69	70
6. Figure daily amounts from weekly budget	27	24	33	24
7. Find multiples of itemized weekly expenses	73	72	76	70
8. Compute a sales slip, including tax	50	49	52	50
9. Estimate weekly savings to buy an item	54	49	55	58
10. Calculate weekly wages from piecework rate	59	57	57	63
11. Compute monthly rate to repay a debt for a year	48	47	51	45
12. Compute total and average scores in sports	53	56	53	51
13. Find total materials cost from unit costs	46	40	44	54
14. Determine recipe amounts from different size groups	52	62	36	59
15. Calculate distance from time and rate	74	74	75	74

The norm-referenced section of the test was normed against a national sample by Science Research Associates, Inc. (SRA), using SRA Achievement Series Scores Math Form ES Green. The average score for the 25,577 Missouri students taking this test in 1979-80 was at the 59 percentile, compared to the national norm of 50 percent.

TABLE 43
SCHOOL FOOD SERVICES PROGRAM 1980-81

LEA's Approved	Schools Participating	School Enrollment	Average Daily Attendance
914	2599	923,212	850,045

CASH REIMBURSEMENT (FEDERAL)					CASH REIMBURSEMENT (STATE)		
School Lunch	Special Milk	Breakfast	Nonfood Assistance (Equipment)	Cash for Commodity Distribution	School Lunch	Value of Donated Food (Federal)	Total Federal and State Assistance
$47,012,272	$2,437,531	$4,056,132	$233,958	$350,132	$4,703,021	$18,526,617	$77,319,663

SELECTED STATISTICS—1980-81

An average of 580,074 students were served lunch daily during November, the high month for 1980-81.
63 percent of the enrollment and 71 percent of the ADA participated in the lunch program daily.
98,345,226 Type A lunches were served children.
37,154,703 lunches were served free or at reduced price to needy children.
805,366 units of government donated food were distributed.
School Food Services represented a $143.7 million industry.
Food cost amounted to $75,184,142.
$52,726,397 were paid in salaries at the local level.
